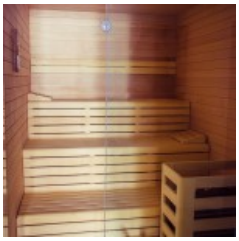
Wellness holiday in Colle Isarco

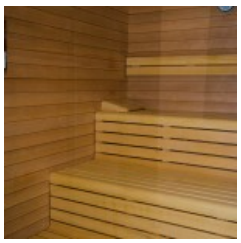
For us at Pichler Aparthotel, relax and wellness are taken into great consideration. We offer you absolute pleasure with a wellness holiday in a peaceful hotel with spa.

Recreation and well-being are very important to us at the Apart Hotel Pichler, you can relax in our small wellness oasis of the hotel. Your relaxing holiday in Colle Isarco awaits you.

After a great day spent skiing or hiking amidst the enchanting mountain scenery of South Tyrol, our spa with its silent area provides an opportunity to make your stay even more relaxing and pleasant. Besides its comfortable apartments, our hotel also offers an area where you can rest your soul and forget about stress.

Guests can relax in our bio-sauna caressed by the natural warmth of steam. The steam bio-sauna combines the traditional Finnish sauna with a steam bath and provides a lighter variant on the classic sauna. Alternatively, you can enjoy the pleasant warmth of our infrared cabin, where heat is released on the skin by infrared rays and does not spread in the air.

Between one session and another, you may want to breathe in the silence and peace of our relax area. Relax on wooden deckchairs and soak in the peaceful and warm atmosphere.




Needless to say, our guests have free access to our spa. The best way to end a day and regain strength and inner balance.
